SUMMARY

Full-Stack Developer specializing in Flutter and Node.js, with hands-on experience building mobile applications and RESTful backend services. Experienced in Clean Architecture, BLoC/Cubit, REST APIs, Firebase, and responsive UI development. Founder of C&C Academy and Flutter Instructor with experience delivering practical training and mentoring aspiring developers. B.Sc. in Computers and Information graduate from Tanta University (2026).

EDUCATION

B.Sc. in Computers and Information

2022 – 2026

Tanta University — Faculty of Computers and Information

- Graduated June 2026
- Graduation project (QualiVerse) successfully defended

WORK EXPERIENCE

Founder & Instructor

Aug 2026 – present

C&C Academy — Tanta, Egypt (Remote)

- Founded and manage a programming education academy offering courses across multiple technologies.
- Develop practical content and hands-on projects for learners.
- Mentor students and support the academy's technical operations.

Flutter Instructor

May 2025 – Oct 2025

Core Academy · Tanta, Egypt (On-site)

- Taught Flutter, Dart, and Python courses to 30+ students per cohort
- Designed 10+ hands-on projects covering state management, REST APIs, and Firebase integration
- Mentored students through building 3–5 real-world mobile applications from scratch, with 90%+ course completion rate.

TECHNICAL SKILLS

Mobile Development: Flutter • Dart • Responsive UI • Animations • Localization

Back-end Development: Node.js • RESTful APIs

State Management: BLoC / Cubit • Provider

Back-end & APIs: Dio • HTTP • Authentication

Architecture: Clean Architecture • MVVM • Separation of Concerns

Storage: Hive • SQLite • Shared Preferences

Backend & Cloud: Firebase • Supabase

Tools & DevOps: Git • GitHub • CI/CD Pipelines • Android Studio • VS Code

Other Languages: Python • C++ • JavaScript

PROJECTS

QualiVerse – AI-Powered Academic QA & Accreditation Platform | *Graduation Project · Flutter*

Desktop · Clean Architecture · ASP.NET Core · SQL Server · Python AI

Desktop platform automating academic quality assurance and accreditation workflows, built with a 10-member team.

- Architected the Flutter Desktop client with feature-based Clean Architecture across 55+ Cubits for scalable state management
- Built secure authentication with a Dio interceptor-based token refresh rotation, eliminating session-expiry issues under heavy API use
- Integrated with an ASP.NET Core + SQL Server backend and a Python AI layer for automated accreditation analysis

Mr-candy – E-Commerce App | *Flutter · REST API · BLoC · Clean Architecture*

Full-featured online store with product catalog, cart management, and order flow.

- Integrated RESTful APIs using Dio with interceptors for auth token handling, reducing boilerplate by ~60%
- Implemented BLoC state management across 5+ features for scalable cart and product state
- Built adaptive UI supporting 3+ screen sizes with zero layout overflow issues

Syntax Academy — [Google Play](#)

An educational platform for a programming academy offering multiple courses, with separate interfaces for students and teachers.

BaBa App — [Google Play](#), [iOS](#), [App Gallery](#)

A multi-service mobile app connecting users with vendors for browsing, ordering, and booking services through a user-friendly interface. Features integrated delivery management and real-time order tracking.

News Wave – News App | *Flutter · Public News API · Provider*

Real-time news aggregator with category filtering and push notifications.

- Consumed public news API delivering 100+ articles across 6 categories with dynamic refresh
- Designed clean card-based UI with dark/light theme support, cutting average read time by ~20%
- Integrated push notifications reaching users within 2 minutes of breaking news

Note App | *Flutter · SQLite / Hive · CRUD*

Offline first personal notes manager with full CRUD operations.

- Used local database (SQLite/Hive) for persistent storage with no network dependency
- Implemented search, color-tagging, and sorting functionality

TRAINING & CERTIFICATIONS

- **Mobile App Developer Intern — NTI** (National Telecommunications Institute) *May 2025 – Jul 2025*
 - [Certified](#)
- **Flutter Summer Intern — ITI** (Information Technology Institute) *Jul 2025– Aug 2025*
 - Intensive program covering clean architecture & responsive UI
- **Flutter Development Course — Gammal Tech** *Oct 2025*
 - State management, navigation, Firebase integration
 - [Certified](#)

SOFT SKILLS

Adaptive • Dynamic • Focused • Persistent • Productivity
• Communication • Teamwork • Problem-solving
